

Dry Creek Elementary Art Program

The Art Program at Dry Creek Elementary School follows National Standards-Based curriculum. Students create and explore in a nurturing, supportive, and engaging environment. Each developed lesson focuses on Elements of Art as well as, the Principles of Design emphasizing proper technique and craftsmanship. Student creations are rich in Art History, inspired by artists and illustrators from both present and past. Ultimately students will relate and integrate the works and lessons to their social, cultural, and academic experiences.

All projects allow for students to create with a foundation of varied art mediums, skills, techniques, and concepts. As Dry Creek's Art teacher, I believe in the power of Art Education as a platform to showcase each student's unique creativity. Therefore, I manage the Art Room in a responsive, socially relevant and evolving way.

All Dry Creek students have Art Class at least once a week, however some weeks they may be fortunate enough to get Art twice. In addition to regular Art classes, students can also apply to attend Art Club on Wednesdays after school.
